

**Longines Sport Collection -
 Longines Admiral**

The Admiral series evokes the prestigious dimension of sport in which aesthetics, precision and the beauty of the action predominate. The frequent travelers and the adventurers will especially appreciate the 24h "second time zone" watches. This line introduces the subtle ambivalence of an outline that is both sober and robust, and perfectly illustrates Longines' innate ability to match elegance and performance. Values revealed by the aesthetic purity and detailed manufacture of the automatic 24h watches and chronographs with tachymeter of this series.

L3.667.4.56.7
