

Longines evidenza

Who could forget the 1920s? It was a time of rapid change throughout the world, starting with important progress in many areas, as well as an incredible degree of freedom for artists, and of course stylists too. Fashion and design threw off rigid, centuries-old rules while personal accessories of every description grew increasingly handy, compact and stylish. The ladies' and men's watches of the new Longines evidenza collection draw their inspiration from that broad shift in habits and styles. While a 1925 model inspired the specific design of Longines evidenza, its tonneau shape goes back to a Longines model dating from 1911.

L2.142.0.51.6
